Методические рекомендации для учителя

Серия «School English» предназначена для изучающих английский язык в начальной, основной и старшей общеобразовательной школе и включает в себя сборник лексико-грамматических упражнений с тестовыми заданиями, сборник упражнений и тестовых заданий по лексике для самостоятельной работы и сборник упражнений и тестовых заданий по грамматике для самостоятельной работы. Также в серию входят методическое руководство для учителя по организации проектной деятельности школьников на английском языке и ресурсные материалы для учителей для подготовки к сдаче ГИА и ЕГЭ по английскому языку.

Материалы подготовлены в соответствии с требованиями Федерального государственного стандарта начального образования и основного общего образования, отражают основные программные положения в области иноязычного школьного образования и основываются на современных технологиях обучения иностранному языку.

Основная цель сборника – развитие коммуникативных иноязычных умений в области устного и письменного речевого общения, последовательная подготовка учащихся к сдаче государственной итоговой аттестации по английскому языку.

Сборник лексико-грамматических упражнений предназначен для повторения и закрепления грамматических и лексических тем, составляющих основу формирования иноязычной коммуникативной компетенции учащихся шестого класса. Отрабатываемые темы соответствуют школьной программе.

Сборник лексико-грамматических упражнений может быть использован по усмотрению учителя в качестве материала для домашнего задания, работы в классе, самостоятельной работы и факультативных занятий.

Сборник лексико-грамматических упражнений включает в себя шесть частей (blocks), рассчитанных на работу в течение учебного года (по три части в каждом полугодии).

Часть 1 (Block 1) предназначена для повторения материала предшествующего года обучения и рекомендуется для выполнения в сентябре. Часть 2 (Block 2) может выполняться в течение октября и ноября. Часть 3 (Block 3) рекомендуется для выполнения в течение ноября и декабря учебного года. Часть 4 (Block 4) выполняется в январе и феврале. Часть 5 (Block 5) рекомендуется выполнять в течение марта и апреля. Часть 6 (Block 6) выполняется в мае. После каждой части предлагаются тестовые задания. Тесты разработаны в двух вариантах, которые можно использовать как одновременно, так и последовательно.

Примерный календарный план работы

Часть	Месяц	Тест	Месяц
1	сентябрь	1.1, 1.2	сентябрь
2	октябрь-ноябрь	2.1, 2.2	ноябрь
3	ноябрь-декабрь	3.1, 3.2	декабрь
4	январь-февраль	4.1, 4.2	февраль
5	март-апрель	5.1, 5.2	апрель
6	май	6.1, 6.2	май

Каждая часть (Block) состоит из трех разделов (Sections), отличающихся по характеру выполняемых заданий. Раздел 1 (Section 1) включает задания репродуктивного типа, направленные на отработку языковой формы (например, употребление глагола в соответствующей форме). Раздел 2 (Section 2) предлагает задания репродуктивно-продуктивного характера (например, дополнение предложений), что позволяет плавно перейти от механического воспроизведения речевого образца к созданию собственного речевого высказывания. Раздел 3 (Section 3) включает задания творческого характера (например, расспрос собеседника о каком-либо событии), позволяющие сконцентрировать внимание учащихся на содержании высказывания. Письменное выполнение заданий этого раздела формирует умение структурировать свое речевое поведение.

Такое распределение заданий по трем разделам позволяет последовательно выстраивать работу по формированию иноязычной коммуникативной компетенции учащихся в различных видах речевой деятельности (в частности, при построении монологического и диалогического высказывания).

Внутри каждого раздела представлено достаточное количество заданий для закрепления лексико-грамматического материала. Хотя последовательность заданий и подчинена логике «от простого к сложному» и «от знакомого к новому», нет необходимости выполнять задания в порядке, предложенном автором.

Кроме того, распределение заданий по трем разделам продиктовано необходимостью выстраивать индивидуальную образовательную траекторию учащихся с учетом дифференцированного подхода.
